

St. Teresa's Hospital 聖德肋撒醫院

St. Teresa's Hospital telemedicine is not suitable for symptoms requiring immediate medical assistance. St. Teresa's Hospital does not (i) provide emergency medical services; or (ii) provide care for any acute medical condition.

If (a) you need emergency medical assistance; (b) you have or have had symptoms that require immediate medical attention, including but not limited to:

- Asphyxia
- Fracture
- Chest pain
- Speech difficulties
- Severe bleeding
- Seizures
- Severe pain
- Lose consciousness
- Difficulty breathing
- Weak hands and feet
- Confusion and/or fantasies
- Suicidal or homicidal thoughts
- Other serious medical or similar symptoms

Please call an ambulance or go to the emergency room of the nearest hospital.

If you need any immediate medical assistance, St. Teresa's Hospital telemedicine is not for you. In addition, the patient must be in Hong Kong at the time of doing so.
